TESTIMONIALS

Achieving Excellence in Functional Jaw Orthopedics and Case Finishing

Dr. James Broadbent, DDS, MS

“Congratulations on your excellent presentation. You are an inspiration to our profession and I know your efforts will help direct our profession and peers toward better balanced practices.”
DR. OWEN III, DDS, MS, Texas, U.S.A.

“Thank you for a very informative session. As an orthodontist, I was very skeptical of some of your treatment philosophies. But, after having attended your courses, my practice is taking a new direction.”
DR. LOVINGGOOD, DDS, MS, Missouri, U.S.A.

“The cases you have shown at the Alexander Study Club were exceptional and just couldn’t have been done with conventional fixed appliances. I knew I was missing something and now I have found it. You are providing a great service for your patients...a service I hope to provide as well! It appears you have taken functional appliances to a new level.” DR. SABBOTT, DDS, MS Colorado, U.S.A.

“Dr. Broadbent offers a most comprehensive overview of removable and fixed orthodontic modalities, both past and present. I highly recommend this course for those individuals wishing to pursue the goal of excellence in orthodontic treatment in their own practices.” DR. WORTH, DDS, Ontario Canada

“An honest course that cuts to the quick. As a beginner, I appreciated Dr. Broadbent’s honesty in outlining the cases to refer until I gain more proficiency and experience. Great tips on speeding up Twin Block treatment.” DR. MUELLER, DDS, Alberta, Canada

“Dr. Broadbent’s material nicely compliments the orthodontic foundation presented by Dr. John Witzig. Those of you who are either beginning or are experienced with the use of functional appliances and straight wire therapy will benefit greatly from Dr. Broadbent.” DR. AVTGES, DMD, Maine, U.S.A.

“I found Dr. Broadbent to be very straight forward and honest. I picked up a lot of useful information and great tips to use on an everyday basis.” DR. CORMIER, DDS, New Brunswick, Canada

“It is rare for a presenter to be so honest. Functionals have been a part of my practice for the past 8-10 years, and the wealth of information you shared will definitely help me!”
DR. CALLAHAN, DDS, Illinois, U.S.A.

“You opened up an entire new concept of treatment to me. This new information will greatly benefit many of my patients. I hope opportunities open up for you to speak to orthodontic groups throughout the country so we can all speed up the awareness and utilization of functional appliances by trained orthodontists.” DR. SMITH, DDS, Utah, U.S.A.
