

# ASTICS™ RETAINER

**UNCLEAR HOW YOU CAN  
SEPARATE YOUR PRACTICE  
FROM THE OTHERS?**

Theirs...

Ours!

**The Choice is CLEAR!**

## BioMers

ASTICS™ retainer patients  
are being asked:

“What are you wearing?”

“Where did you get it?”

“Who straightened your teeth?”

What your patient may be thinking:

**“I want an invisible retainer, too!”**

You can now provide your patients with  
**SUPERIOR ESTHETICS** that will  
**increase compliance with retention**  
*without forgoing the functionality and  
performance of traditional designs!*

E&OE 2010

- We are **EXCITED** by the positive comments received from our clients who are now offering the **ASTICS™ Esthetic Retainer**.
- Their patients are **ENTHUSIASTIC** about the **INVISIBLE** retainer since they now have another reason to **SMILE** throughout retention.

**A GREAT PRACTICE BUILDER!**  
**Get your patients “talking”**

- ✓ The high strength of BioMers™ polymer composite wire imparts performance equivalent to that of metal wire.
- ✓ Allows posterior teeth to settle in *unlike esthetic vacuum slip covers*
- ✓ 14 karat gold solder joints prevent discoloration and erosion
- ✓ Optional reinforcement with Wire Mesh or Kevlar
